**COMMUNITY BULLETIN No. 12**

**Thursday 19 October 2006**

**HAY POINT ROAD BYPASS**

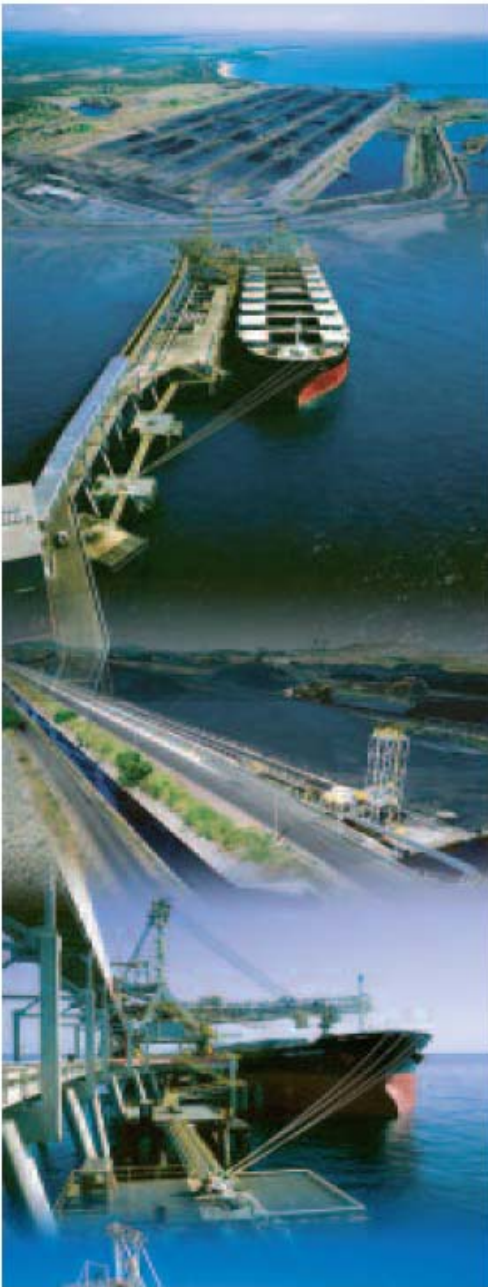

Please be aware that a new conveyor tunnel will be constructed under the Hay Point Road between the two existing conveyor tunnels.

During the construction period, a temporary two-lane bypass will be provided to maintain traffic flow on the Hay Point Road.

Asphalt sealing and line-marking of this bypass road is currently underway and the bypass road will be operational from next Wednesday 25/10/06 when all of the appropriate speed restriction signage and safety barricades are in place.

(For details see the attached drawing)

The bypass road will be operational for approximately four months after which time road traffic conditions will revert back to normal.
