

“Building
the future together”

BBI (DBCT) Management Pty Ltd – DBCT 7X Project

COMMUNITY BULLETIN No. 14

Friday 17th November 2006

POLICE ESCORTED - LONG WIDE LOADS

For your information:-

Large stacker reclaimer parts will be arriving at the Tug Harbour by barge in the first week of December 2006 for the DBCT 7X Project.

These wide loads will be transported to the DBCT 7X Construction Site under police escort at a time that minimizes inconvenience to the community.

Community access to the Tug Harbour boat ramp will be maintained at all times during these activities.

Trimming and removal of some small trees will be required on the Hay Point Loop Road to accommodate these wide loads. These trees will be replaced.

Some guard rails and signage will be removed and relocated directly after transportation.

A briefing session will be held for community members who are interested in obtaining further details at the DBCT 7X Shop front office in the Ports Corporation Administration Building on Horyu Maru Road at 6:30 pm on Monday 20/11/06.

Please note the timing of these activities is subject to change, pending the arrival of the barges in the Tug Harbour.
