## BBI (DBCT) Management Pty Ltd – Short Gain Project

### COMMUNITY BULLETIN No. 2

#### Arrival of New Reclaimer Components by Barge

The second Barge load of components for the RL1 Reclaimer, which is part of the Short Gain Project, will be arriving from Cairns on Thursday, 20 October 2005.

The Barge will arrive in the Tug Harbour and be positioned on the north side of the Tug Harbour Road.

Unloading of the Barge will commence on Friday, 21 October 2005 using a crane and trailers on the Tug Harbour Road east of the access road to the boat ramp. These trailers will then be parked on the western edge of the boat ramp parking area minimising the impact on boat trailer parking. The barge is planned to leave the Tug Harbour Friday afternoon.

The transporting of the Reclaimer parts from the Tug Harbour to DBCT will take place on Saturday, 22 October commencing at approximately 6:30am and is anticipated to take eight (8) hours. Minor delays may occur to traffic on the road from the Tug Harbour to the entrance of DBCT. Every effort will be made to minimise the impact of traffic users.

**The Tug Harbour Boat Ramp and vehicle parking area will be accessible to the Public at all times during this operation.**

Please note if this scheduled operation is delayed due to weather or other factors, a further advice will be issued.
