## ***DBCT 7X EXPANSION SHUTDOWN ACTIVITIES***

With the DBCT 7X Expansion Project now in full swing, the number of high intensity round-the-clock shutdowns will steadily increase to ensure that the scheduled installation and commissioning of new equipment is completed with minimal interruption to terminal operations.

A Noise Control Plan has been developed and implemented for all nightshift activities to assist in reducing any construction noise impacts, however should you have any concerns, please contact Mr Tony Shield, The DBCT 7X Expansion Construction Manager on mobile 0408 738 582.

We thank you in advance for your patience and look forward to your continued support.
